First Onsite Health Clinics to Open October 1

Beginning October 1, four new First Onsite health clinics will open for state employees and their plan dependants. The clinics will be staffed by nurse practitioners, a registered nurse with advanced training in diagnosing and treating common medical problems. These nurse practitioners will have the ability to write prescriptions, perform physical exams, give vaccinations, check blood pressures and handle most of your routine healthcare needs. Most employees and dependants are covered by the Kentucky Employees' Health Plan (KEHP), however these clinics will accept other health plan coverage as well.

Onsite Information:
- Appointments preferred but walk-ins welcome
- Normal co-pays apply for KEHP members
- Your treatment record is held in strictest privacy
- Allergy shots and storage will be complimentary
- The First Onsite Clinics are to be used in the same manner as if you were going to visit your regular family doctor; therefore employees are required to use sick leave or personal time to visit the clinics

- These sites are located on state property, making medical visits more convenient and efficient for you and your family
